SUN

The Sun is the source of your vital power, principally ruling the brain and heart in man and woman. Its sign location (zodiac Sun sign), aspects to other planets, and house position indicate the vitality of the body, especially in males. The Sun is thus the indicator of health in males, while the Moon governs health matters in females. However, the Sun and Moon are important in health matters in both sexes. The Sun signs and Moon signs at birth, along with their aspects and positions, are regarded as the "fountains of life on Earth". The Sun is one of the vital centers in a star map, along with the Moon, Ascendant (rising sign), and Midheaven (tenth house).

The power of the Sun and how it radiates within you can be thought of as light rays emanating from a light bulb, powering into your body. The Sun signs are divided into the Four Elements: FIRE (Aries, Leo, Sagittarius); AIR (Gemini, Libra, Aquarius); WATER (Cancer, Scorpio, Pisces); and EARTH (Taurus, Virgo, Capricorn). All males born with the Sun in fire signs have the best prospects for good vitality, as light radiates most freely in a body composed of the fire element. Light also radiates freely in air, and these natives are the next strongest, but air sign people become weakened by worry and nervousness. They need rest to recuperate. The earth element for sunlight is linked with the densest matter, gives tenacity, wear and tear, rather than vitality. These individuals tend to recovery slowly from their illnesses. The water element for transmission of sunlight gives the weakest constitution, being a more difficult medium to manifest light (except Scorpio).

The Sun is the giver of life, but is quite impersonal in its influence that the average man or woman rarely contacts its higher qualities in a conscious or positive sense. Planetary aspects, even if hard (square or opposite), are better than no aspects at all, as in the latter, the native is hardly touched at all by its influence. This fact is the reason "Sun sign" prophecies found in the tabloids and daily paper make no sense to some individuals. When well placed, however, it signifies will power, authority, and self-reliance. If afflicted by the Moon or Ascendant, it will make the health feeble and the vitality low.

The Sun rules the metabolic fires of your body's cells. Its placement represents how that energy is needed and distributed. This topic has been termed PHOTOBIOLOGICS by the author. All biologic life is ruled by the Sun. Your body requires copious quantities of light from many sources to maintain your health, vitality, and beauty. Each Sun sign has recommended foods that tend to foster vitality, as well as dietary pointers, and warnings about certain foods that will disturb your body's distribution of the Sun's vital rays, indicative by your Sun's zodiac placement (the season of the year in which you were born).

In terms of the Zodiac, the twelve signs represent the Grand Man, and rule the different parts of the body, from head as in Aries, to toe as in Pisces. Thus, there is a zodiacal rulership over the body and its organs. In terms of Sun signs and rising

signs, it represents where disease potential exists. The locations and transits represent how an organ or bowel will be afflicted since these are rotating, dynamic entities. The houses at birth, signify why disorders will manifest.

Inharmonious aspects to the Sun are angles and locations of the other planets in their orbits in relationship to the Sun. They are called afflictions. For example, if the Sun is afflicted by a hard angle to the Moon, the health will be weak, and the rays of the Sun will be on the cold side, the eyesight will suffer.

ANATOMY AND PHYSIOLOGY: Vitality, the absorption of prana through the spleen, the immune system, heart function, spine and back, eyesight, individual cellular metabolism, the blood and oxygenation, consciousness.

SUN in SCORPIO

☉ in ♏

Pluto, planet of fiery intensity is the ruler of Scorpio. Long ago, Mars, planet of fire and energy, was the ruler of Scorpio. Pluto can be thought of as a triple strength Mars and in many ways Scorpio is the most powerful sign of the zodiac. A true Scorpio's expressions and personality make the native appear magnetic and intense. Their thoughts are highly guarded, and others can get to know them only up to a certain point. They have a strong, competitive nature and are apt to be revengeful and jealous. This is a fixed sign and these individuals have tremendous staying power and are prone to be "workaholics".

Each sign has an external, internal, and structural rulership. Externally, it rules the nose and nasal bones, the pubic area, and genital organs. Internally, it rules the gonads, hemoglobin, bladder, prostate, descending colon, sigmoid flexure and rectum. It has influence over the vocal cords and larynx. Structurally it rules the pubic bones, os sacrum and coccyx, and nasal bones. This sign also has influence over the thymus and thyroid glands, liver, uterus, menstruation, sweat glands, and the endocrine glands in general.

Scorpio colors are red, black, violet, and midnight blue, while its most benefiting color is emerald green. Scorpio's birthstones are kunzite, spinel, opal, and quartz. These individuals should remember to wear these stones only if they wish to bring that particular energy into their life. Scorpio flowers include the anemone, heather, geranium, rhododendron, honeysuckle and gardenia.

BENEFICIAL BACH FLOWER ESSENCES:

Agrimony (rose family): Over indulgences, mental torture, worry, concealed from others, intoxicates to forget oneself.

Willow: Suffers bitterness and resentment from any adversity, self pitying, self justifying.

HOMEOPATHIC POLYCREST REMEDY: Pulsatilla - Used in the treatment of coughs, earaches, menstrual disorders.

CELL SALT: Calcarea sulphurica

HEALING NOTE: C

AROMAS: Black pepper, cardamom, coffee, ginger, hyacinth, hops, pennyroyal, pine, thyme, tuberose, woodruff.

PHOTOBIOLOGICS: Scorpios should avoid fatty, rich, and intoxicating foods and drinks. The native is benefited with a vegetarian diet. Green ray foods are stabilizing like brown rice, millet, wheat grass, spinach, lettuce, celery, cucumbers, etc. The Martian influence requires that the native drink plenty of water and fresh vegetable juices, and should avoid salt. Benefiting foods are cherries, oranges, lemons, asparagus and rhubarb.

SUSCEPTIBLE AREAS: Breast, heart

AFFLICTIONS: Anemia in women; adenoids, sore throats, hay fever; profuse menstruation, painful and irregular menstruation, ovarian disturbances; diarrhea, hemorrhoids; hypersensitivity; bladder problems, infections; obesity, diabetes; heart disease; genital infections; renal calculi.

MOON

Your Sun sign indicates constitutional vigor and its elemental quality (fire, air, water, earth), your Moon sign shows the flow of this vital force and your health. The Moon predominates health matters in the female chart, as well as those caught under the influence of its emotional force. A disturbed flow of the vital force, ruled by the Moon, will cause fluctuations in vitality and ultimately disease. Your Moon sign and its aspects shows your instinctive, reflex actions, and your habits (good or bad). Moon patterns are reactions and habits set up in childhood, and become fixed unless acted upon by the individual themselves. Its location, aspects, and afflictions are one of the most important factors to consider in the health chart.

The Moon represents the personal habits, suffering, worry, and disease tendencies. The Moon sign is always very sensitive and represents the weakest part of the body. Operations should not be performed when the Moon is passing through the native's sign. The Moon rules the body's fluids, lymphatics, and the natural power of each organ, including its expulsive or detoxifying powers. Acquired and destructive habits are generally under the influence of the Moon sign. It rules the period of life from one to seven years, when so many destructive habits and health patterns are acquired, as for example from the parents or guardians. It shows what type of habits you may develop and how they affect your health.

Moon diseases today predominate the health chart. The Moon has a special affinity for the eyes and eye disorders, defects and errors of accommodation, putrefaction of the bowels, autointoxication; and disorders of the breasts, womb, and stomach. Moon forces harden and crystallize the body with age. Moon dominated persons are inconstant, restless, changeable, and variable, and succumb easily to infectious illnesses, colds and flu. The Moon rules the stomach. Today we see swollen abdomens due to excessive eating. Full, round bellies with visual defects reflect just how Moon bound and problematic the aspects of this orbital body is in the health astrological chart.

The Moon afflicts other planets and signs by its oppositions and squares. Ill-aspects show an inclination to little or no exercise. The less afflictions in the female nativity, the better a chance of a long and prosperous life. The Moon sign signifies diseases that are acquired after birth, particularly due to indiscretions, bad habits, and emotional proclivities. It rules the natural powers and immunity. Cancer, the malignant disease, is a Moon disease, and is prevalent in our mood-based society of foul language, nasty thoughts, toxic diet, and bad habits.

It should be noted whether the Moon is above the horizon at birth (waxing) or below the horizon at birth (waning). The health will be stronger with the Moon above the horizon, rather than below. Hard aspects (afflictions) are not as strong when the Moon is waxing or increasing in light.

PATHOLOGICAL TENDENCIES: The Moon rules diseases that are periodic, return time and again, as in epilepsy, vertigo, menstrual problems, swellings, migraine headaches, and gout. Rheumatism is a Moon disease, caused by the retention of wastes in the joints and fascia. Cancer is a Moon disease, caused not only by retention of wastes but also morbid bacteria, fungi, and viruses. Moon diseases today are epidemic, as obesity, lymphatic stasis, tissue puffiness, autointoxication, fungal/zymotic disorders, and worm infestation affect nearly all industrial populations. Moon diseases are accentuated by working under artificial lights or at night, drinking water from underground pipes and/or obtained from recycled wastes, eating devitalized food stored in refrigerators and freezers, breathing stale, foul or polluted air; and eating slaughterhouse meats.

The foods and spices that benefit Moon afflictions are those ruled by the Sun and Mars. The Sun produces fruits and vegetables which when eaten raw and/or fresh, will vitalize the individual and ward off disease. The old adage, fresh is best, aptly applies to the health rules.

ANATOMY AND PHYSIOLOGY: Lymphatic system, breasts, mucous membranes, menstruation/fertility/uterus in pregnancy, stomach and alimentary tract.

ARE YOU A SUN OR MOON DOMINATED PERSON ?

The night is ruled by the Moon, and the Sun rules the day. The ancient astrologers believed that those born during the day are more ruled by the Sun, whereas those born at night are more ruled by the Moon. Moon activities tend to raise the action of morbid germs, while the electric action of the day tends to destroy them. Night activities are less vitalizing than daytime activities. Females and Moon people tend to suffer more at night when ill. Moon people are more restless, inconstant, and changeable. The Moon rules the personality and lower mind, while the Sun rules the intellect and higher mind. Health tends to return when one begins to "see the light".

MOON in PISCES

☾ in ♋

The Moon in Pisces indicates a receptive mind and a fertile imagination but with a disposition to indolence and self-pity, vacillation and faintheartedness, sorrow and self-undoing. Should the native meet with many misfortunes and obstacles in life, he or she is apt to become irresolute, inert, downhearted and easily discouraged. If well aspected, the native has a fruitful imagination, is kind, benevolent, quiet, retiring, sympathetic, fond of luxury, comfort, beauty, harmony, and is to a certain extent vacillating. Very often these natives become walking encyclopedias. As lecturers, teachers, writers or composers they are wordy, fluent and correct in their manner of delivery. If in good aspect to Venus or Mercury it enables them to take up music with extraordinary inspiration and feeling. If the Moon is afflicted in Pisces, love-affairs are apt to bring the person into trouble. They need to adopt a philosophical approach to life being aware of the tendency to emotionally hurt or opt for overindulgence of every kind, especially alcohol and drugs. Women with Pisces Moons are prone to developing anxiety and queer personality complexes. They can also become psychic with a gift for healing.

This is a sign of a weak constitution with proneness to obesity from overeating. They suffer from abdominal and bowel problems. Their bodies tend to be plump, puffy-soft and fat. Due to lymphatic stasis, which this sign rules, they are prone to edema, swelling in the feet, and tendency to catch cold especially when the feet are exposed to coldness and dampness. They are apt to have a dull mind with sleepy eyes, lethargy and inactive disposition. They should regulate their breath with rhythmic breathing exercises, swimming, jogging, etc. There is also a tendency to progressive emaciation when taken ill, e.g. in HIV, tuberculosis, and chronic fatigue.

SUSCEPTIBLE AREAS: Thighs, feet.

AFFLICTIONS: Skin blotches, blemishes, sores, ulcers, pimples late in life, and pale skin, impure blood and catarrh.

BENEFICIAL FOODS: Garlic, leeks, watercress, cayenne pepper, lemonade, corn, walnuts, peppermint tea and horseradish.

FOODS TO AVOID: Restrict intake of strong drinks, coffee, and wine.

RASHI HOMEOPATHIC MIXTURE: Camphor, china, belladonna, kali bromatum, selenium, carbo vegetabilis, helonias.

MERCURY

Mercury, when well placed in the nativity chart, indicates a good and balanced mind. It rules the cerebral hemispheres. Ill-aspected and afflicted, it shows a tendency to various disorders of mental reasoning, bad judgment, nervous disease, and tendency to gamble, swindle, insomnia, and a lack of spiritual calm. The location in the chart shows what body parts may be prone to neuralgia.

Mercury rules Gemini and Virgo, therefore it manifests in diseases related to respiratory and digestive disorders, particularly of nervous origin. Physiologically, Mercury rules the respiration and breath. Mercury afflicted at birth indicates a tendency to shallow breathing. The Hindus believe rhythmic breathing is necessary for direct link between the soul and mind. Unrhythmic breathing severs this connection leading to nervous conditions, those easily influenced by others, proneness to depression, and even insanity. Proper and unregulated breathing beginning in early life leads to a cascade of pathological actions including lack of intellectual development, oxygen deficient blood, tendency to overeat since the diaphragm does not "massage" the stomach due to stifled breathing, lymphatic stasis since breathing opens the lymph channels, and lethargy due to lack of vital force and sluggish pranic currents. Mercury placement indicates much more than the mundane astrology books indicate.

Mercury is considered a neutral planet, in that its transmissions are governed by the aspects to other planets in the chart. When Mercury conjuncts the Sun, the ego is involved; aspected to the Moon, the subconscious and habits; to Jupiter, exaggeration, etc. When Mercury's nervous messages are distorted by the rays of another planet, inaccurate reception of information and inappropriate neural commands are likely. Simply, response does not match stimulus resulting in unbalanced behavior. If the large planets are involved, this can translate into important health consequences.

PATHOLOGICAL TENDENCIES: Mercury's chief influence is on the nerves. In regards to aches and pains, the placement of Mercury in the sign of body rulership shows tendency to affliction when ill-aspected. Thus, Mercury in Aries shows the tendency to headaches, in Taurus a tendency to laryngitis and sore throats, in Gemini chest pains, etc. To offset Mercury afflictions and thus reduce tendency to aches and pains, the native must learn proper and rhythmic breathing. Taking up study of yoga or Chinese Ch'i Kung would be of great benefit.

ANATOMY AND PHYSIOLOGY: Nervous system, nervous faculties; breathing, the

hands, the touch; organs of speech and hearing.

MERCURY in SAGITTARIUS

♀ in ♂

This position indicates a philosophical and religious mind that is nevertheless free from the ideas of convention and conservatism. Although Mercury is in its detriment in this sign, when favorably aspected it indicates an exceedingly noble mind and also a love of nature and animals. Very independent in their ideas and opinions, these individuals learn best by traveling and circulating in groups and in different places. If Mercury is adversely aspected, the intelligence may be limited and there is a tendency to dishonesty and lawlessness, resulting in a twisted character or politician. This position can indicate nervousness and stress-related sciatica. The native would benefit by chiropractic care and massage.

SUSCEPTIBLE AREAS: Breast, kidneys, heart, sex organs.

PATHOLOGICAL TENDENCIES: Rash reactions, and mental strain where one becomes their worst enemy; balding about the forehead; kidney disease and lameness of the legs; asthma and bronchitis, balding about the forehead, pains in the hips and thighs.

NERVINES: Sassafras, honeysuckle.

VENUS

From the days of Hippocrates, father of Western medicine (Fifth century B. C.), the ancients emphasized the value of diet and exercise as the prime methods of restoration of health and longevity. The ancient figurines of women, known as the "Venus statues", depict a bottom heavy, obese figure of a woman. Some of these Paleolithic figurines are believed to be more than 20,000 years old. They are found in all areas of Europe, as far away as Russia, and they all show women with huge, fat hips and buttocks. Today, it is known as the "Venus Syndrome", the connection between Venus and the lower body fat, today referred to as "cellulite" - the thickening and laxity of connective tissue beneath the skin, around gelatinous pockets of fat, which traps toxic matter and body wastes.

Venus is the principle of harmony, equilibrium, homeostasis, and thus rules the body's hormonal secretions. The Moon and Venus rule strongly over the affairs and health of women. It rules over all regulatory and secretory functions, especially the female sexual hormones. It rules the chemical composition of the body's fluids, acidity and alkalinity, sodium-potassium balance, and the other mineral ions. The planet is basically benefic in action, but in hard aspect frequently points to numerous little disorders, showing a general relaxation of the system and body tone, but eventually debilitates the native as the years pass. Its afflictions are generally maladies due to indiscretions in diet and habit.

PATHOLOGICAL TENDENCIES: Venus has traditionally been associated with diabetes. Hard aspects to Venus point to lack of homeostasis, lack of tone, congestion and swelling of the body's tissues; cyst formation; and kidney disorders. Venus also rules over the veins and indicates such disorders as varicose veins, hemorrhoids, vascular spiders, etc.

ANATOMY AND PHYSIOLOGY: Homeostasis, hormonal balance, ovaries, kidneys, venous system, tissue tone, nutritional functions, skin and complexion.

VENUS in SCORPIO

♀ in ♏

This position indicates a jealous love nature, intense passion and emotions, and a love for sensation, luxury, and pleasures. Excesses of sex and passion in early life may lead to health complaints. If well aspected, there is sometimes a religious fervor and a chance for gain by legacy. If afflicted, there may be jealous marital relations, impulsive natures, and a need to control relationships. This position can indicate susceptibility to venereal disease, disorders of the womb, ovaritis, vaginitis. The consumption of protein and dead animal flesh should be moderated to prevent sore throats and hemorrhoids.

PATHOLOGICAL TENDENCIES: Heart afflictions; ovarian and genitourinary disease, uterine complaints, disordered womb; hemorrhoids; weakness of the bladder; tonsillitis and sore throats; hay fever; venereal infections, syphilis.

ASTRINGENTS/TONICS: Cumin, peppermint.

SUSCEPTIBLE AREAS: Throat, kidneys, sex organs.

MARS

Mars is known as the "lesser unfortunate", and Saturn is known as the "greater unfortunate", as both are considered malefic planets. The action of Mars is acute and violent, heating, inflammatory, and febrile. Mars rules one's physical energy, expressed as either self-assertiveness and healthy efforts, or aggression and hostility. Mars actions include arousal, erection, and penetration. Mars diseases are traumatic, contagious, burning, blistering, leaving scars, pock marks, and disfigurements. They are diseases that arise from anger, frustration, madness, and wickedness. When Mars is well aspected, it shows a strong constitution, good physical endurance and independence. Natives under strong benefic influence are practical, handle instruments well, and make good surgeons and dentists. When unfavorably aspected, the native is prone to fits of fury, argumentative, and liable to accidents.

Esoterically speaking, Mars, like the Moon, is one of the planets that loses its

influence as spiritual faculties are developed. It is a planetary influence where its principal expression - anger - always brings reciprocal negative reactions of the worst kind. To better understand its influence in the native, the house location indicates the external conditions in the life of the native that needs spiritual development. The zodiac sign location of Mars indicates the body's susceptible areas where the negative emotion of anger will raise havoc and disorder.

PATHOLOGICAL TENDENCIES: Inflammations and scars on the body parts ruled by the zodiac sign or house of its placement; alterations in blood chemistry, especially glucose, calcium, magnesium; geloses and myogeloses in muscular tissues; liver torpidity and congestion; genitourinary infections; hypertension and hypertensive headaches, migraine.

ANATOMY AND PHYSIOLOGY: Body heat, inflammatory response, adrenal function, formation of hemoglobin and blood clots, digestion of food, muscular activity, glycogen storage and liver function, genitals.

MARS in SCORPIO

♂ in ♏

This is one of the strongest signs in which Mars can be placed, indicating the natives are resolute, courageous, and willful, yet also mechanical, practical and hard working. Their manners can be blunt, the mind is acute and capable of directing others. Such people are often found in government positions or where authority is required. They are also successful as chemists, surgeons, investigators, writers, and financial manipulators, or in any other occupation which involves the use of liquids, sharp instruments and tools. They have strong likes and dislikes, are somewhat revengeful due to their intensity of purpose to attain their goals. There is likelihood of gain through marriage. When Mars is afflicted in Scorpio the native is apt to be quarrelsome, revengeful and overbearing. This often brings out the worst side of their passionate nature which can sap the vitality and lead to premature aging unless moderated. It is also indicative of accidents and the possibility of legacy. In a woman's horoscope it shows that the husband has good earning capacity, but is rather too free and generous with his means. When afflicted, the husband tends to squander money on self-gratification. These natives are prone to hemorrhoids and should drink adequate amounts of water (6-8) glasses daily to keep the liver and intestines clear.

PATHOLOGICAL TENDENCIES: Urinary and seminal complaints, cystitis, balanitis, genital infections; anal disease, piles, hemorrhoids; adenoids, sore throats, enlarged tonsils; painful menstruation, ovarian and uterine disease, tendency to abortion; appendicitis; arrhythmia; diabetes; gout; renal stones; anosmia, parosmia; prostate hypertrophy, prostatitis.

ANTIPHLOGISTICS/COOLANTS: Carrot juice, gentian, hops, peppermint.

VULNERARIES: Arnica, chamomile.

KARMIC TENDENCIES: Death by burns (opposite or square the Sun or Moon); death at sea (afflicting the Sun, Moon or Ascendant); rape.

SUSCEPTIBLE AREAS: Head, sex organs, arms, thighs.

JUPITER

When favorably aspected, Jupiter shows one's tendency to benevolence and jovial disposition. These natives are courteous, refined, law abiding, and honorable. When adversely aspected, it denotes lawlessness, self-indulgence, carelessness in meeting obligations, and gluttony which results in ill-health.

Medically, Jupiter in the natal chart rules the liver, the main organ for balance and detoxification, reception of the intestinal portal circulation, and control of fat utilization. Thus, Jupiter rules fat metabolism. It rules the arterial blood, and the functions of digestive assimilation, especially in regards to the liver. Jupiter also rules the adrenals and the storage of glycogen, and thus has influence over the stamina and muscular power. The placement of Jupiter points to those herbs and dietetics that will best suit the native for detoxification and periodic cleansing of the bowels and thus the liver.

Although Jupiter by nature is benefic, it has a malefic influence when in hard aspect to the Sun, Moon or Ascendant; and in the sixth house. Most of its maladies are accentuated by indiscretions in diet leading to blood disorders, toxicity, and fatty accumulations.

PATHOLOGICAL TENDENCIES: Obesity, toxicity, hypertension, abdominal fullness, diseases from "high living", stroke, hemorrhagic diseases, jaundice.

ANATOMY AND PHYSIOLOGY: Liver functions, especially detoxification and glycogen storage, production of urea and bile; fat metabolism; blood and arterial system; growth hormone.

JUPITER in AQUARIUS

♃ in ♒

Jupiter in Aquarius, when well-aspected, indicates a humane, optimistic, original and philosophic mind. The native is fond of friends and company and is interested in science, mysticism, literature and music. This is a good aspect of general success in life, but if Jupiter is afflicted it makes these individuals restless, nervous and erratic with a lack of inclination for serious work which is bad for their health.

SUSCEPTIBLE AREAS: Feet, arms, shoulders, breast.

PATHOLOGICAL TENDENCIES: Hypertension with edema, swelling of the ankles,

poor circulation and impure blood, apoplexy, palpitation; lumbago, flying pains and colic; disorders of the arms.

LIVER CLEANSING: Red vegetables and fruits - beet, radish, strawberries, peppers, etc. mixed with carrot juice to taste.

SATURN

In Greek, Saturn is known as "kronos", from which our word "chronic" is taken. Permanent disease is signified by the placement of Saturn in the chart, and its course and attack by the motion of other planets. Its action signifies binding, crystallizing, cold, dry, hardening, depleting, obstructing, retarding, and suppressing. The afflictions of Saturn are for prolonged periods, whereas Mars afflicts more acutely, for short periods.

Saturn's placement in the chart is associated with the solid matter of one's body, ruling all dense components and processes. Saturn in any part of the horoscope is considered an affliction to the zodiac sign, house, and parts of the body so ruled. It tends to weaken and make one more liable to disease, and the sign and parts ruled are usually considered the most vulnerable, even to cause death through disease and malignancy. Those parts ruled at birth by Saturn indicate reduced nerve and energy supply, insufficient oxygenation, accumulation of tissue acids, and thus fibrositis, myositis, and rheumatism. The planet Saturn indicates subnormal conditions by inhibition, retention, and suppression. The medical astrologers at the turn of the century stated that carcinoma is most liable to occur in that part ruled by the sign that Saturn is in at birth. Saturn also has rulership over the blood's clotting factors, the parathyroids, and calcium metabolism.

Saturn's afflictions come from lack of self control, spiritual development, and materialistic tendencies. When manifested negatively, Saturn's principle action is quite simply fear. The hard aspects indicate opportunity to come to terms with a specific kind of fear. The type of fear is indicated by Saturn's aspects (conjunct, square or opposition) to the Sun, Moon, Mars, Mercury or Venus.

PATHOLOGICAL TENDENCIES: Typical Saturnine problems are chronic skin complaints, stiffness of the joints and muscles, deformity; dental problems; deafness; depression; slowed atrophy and functioning of the body's processes; scleroses of the body's tissues, rheumatism from accumulated tissue wastes in the sign or house of the nativity chart.

Subluxations of the spine are partial dislocations of the vertebra which impinge and put pressure on the nerves passing through them, shutting off nerve supply and causing irritation and pain leading to disease. Along the lines of chiropractic philosophy, health is maintained by a correctly aligned spine that requires periodic adjustments by manipulative therapy. Palpation and X-ray discover these deviations

but your astrological chart can identify weak areas that will be chronically affected. Each sign of the zodiac, and malefics placed in them, tend to afflict the vertebra, especially the vertebra ruled by the sign in which Saturn is found at birth. Such sublaxations tend to be the major one throughout life. For example, the sign Libra rules the kidneys and if Saturn is here at birth, the 10th, 11th, 12th dorsals, and 1st lumbar will be afflicted the most, and this is known before examination. From a chiropractic or osteopathic standpoint, the emphasis of treatment should be in the area where Saturn was afflicting at birth as this area will show stasis, restrictions, stiffness, and congestion.

ANATOMY AND PHYSIOLOGY: Skin, bone and joints, teeth, hearing, ossification.

SATURN in SCORPIO

♄ in ♏

This position indicates a strong, determined will. These individuals possess minds that are mechanical and resourceful. They are endowed with courage and persistence which are essential in all pioneering undertakings. Individuals with Saturn in Scorpio encounter responsibility and restriction involving payment of debts of one kind or another. If Saturn should be favorably aspected to Mars, Sun or Mercury it favors surgery, engineering or any occupation in which sharp instruments, fire or water is involved. This position brings legacies and favors financial benefits after marriage. It is also a favorable placement for health and longevity. When Saturn is adversely aspected, it causes sorrow through love affairs, secret alliances, intrigues, and domestic difficulties. The person is liable to ill-health caused by worry, sluggish bowels, constipation, hemorrhoids, and ailments due to auto toxemia. Scorpio with the rigidity of Saturn indicates restrictions and limitations that are imposed by too much control in some area of their lives, or manipulation in order to gain control as indicated by house position. Colon stasis, constipation and sluggish peristalsis are characteristic. The native should drink adequate quantities of water (6-8 glasses daily).

SUSCEPTIBLE AREAS: Knees, legs.

PATHOLOGICAL TENDENCIES: Retention of urine, kidney stones, cystitis;gout; abnormal breathing, lymph stasis; suppressed menstruation, uterine complaints, ovarian disease; faulty elimination, constipation, appendicitis, bad breath, hemorrhoids, auto toxemia, sluggish peristalsis; nervous disorders; bronchitis; anosmia, parosmia; hypothyroidism, obesity, arthritis.

COUNTERACTING STIMULANTS: Asparagus, allspice, garlic, chives.

RULING VERTEBRA: 9th, 12th dorsals; 1st, 2nd, 3rd, 4th, 5th lumbar, sacrum, and taken as a whole, Scorpio rules the os coccyx.

KARMIC TENDENCIES: Death by serpent bites; death by plague; death by drowning (afflicting the Moon), or at sea (afflicting the Sun or Ascendant); rape; death by childbirth.

URANUS

Uranus rules your electrical life breath, and thus your avenues for personal as well as societal freedom. It indicates potential for originality of thought and expression, yet its energy is not accessible to much of humanity at this time. In society it rules the apparently radical ideas and people that are years ahead of their time. They lead to revolutionary events that upset established structures. The Aquarian age of which we are now entering is ruled by Uranus. Its cycle began with the discovery of electricity which it rules and is now interconnecting everyone on the planet with a synthetic telepathy.

Karmically, all aspects of the personal planets - Mercury, Venus, Moon, Mars, Jupiter and Saturn, or the Ascendant - indicate areas of life where there is a strong urge for freedom of expression without restraint and the need for constant stimulation and excitement. This planet also represents the capacity to be high-strung, excitable, and temperamental. The motives of Uranus thus represent the purpose of radically repolarizing an individual's past lives, and open one up to new experience either through stimulating, shocking, and even traumatic crises to find new ways of living. People who are ruled by Uranus are lovers of freedom, rebellious at least restraint, intuitive and inventive. They are aviators, high level mechanics, or deal directly with electricity. It also tends towards erratic behavior and can make people irritable and brusque in manner.

ANATOMY AND PHYSIOLOGY: Skin, bone and joints, teeth, hearing, ossification. Uranus rules all the rhythmic processes of the body. It rules the movement of the whole digestive tract from mouth to anus. Thus, the common symptom of its afflictions are spasmodic manifestations and disrupted rhythms - muscles spasms, shock, cramp, strictures, ruptures, paroxysms, and contortions.

URANUS in CANCER

♅ in ♋

Cancer is a psychic sign and with Uranus so positioned the native is capable of cultivating these powers. They are often overly sensitive, easily hurt, and their nature may be evasive, restless, eccentric, impatient and moody. If Uranus is afflicted, domestic troubles at home and sudden changes of environment are indicated. The native is also prone to nervous indigestion and other stomach ailments. When Uranus is favorably aspected the native's sensitive nature and psychic ability may easily be refined.

PATHOLOGICAL TENDENCIES: Asthma; poor/weak blood; stomach cramps, irritable stomach, stomach cancer, (the native should avoid cold drinks and cold

foods); spasms and cramps of the abdominal (stomach) and lower chest regions, spasmed gall bladder; mental illusions; erratic diaphragm and breathing.

ANTISPASMODICS: Honey, radish, dill.

KARMIC TENDENCIES: Death by drowning (afflicting the Moon); oversensitive, easily offended or disturbed; sudden illness in the breasts, chest, stomach or digestive organs.

NEPTUNE

Neptune takes approximately 164 years to orbit the zodiac, taking about 13 years in each sign. Its position is a kind of cultural expression manifesting itself with imaginative and creative faculties of a generation. Its location points to a common spiritual destiny shown by the sign that it occupies. As one gets older, new generations may then seem strange in style, cultural or artistic expression, something not innately understood by the native.

People with an afflicted Neptune should always be on guard for deception, trickery, and fraud. Since each one's life is the outcome of former living, afflictions of Neptune offer ready channels where enemies from past lives or evil spirits can gain entry into our sacred temple. Forewarned is forearmed and confrontations can be stepping stones upward in life, or misery leading to drug abuse and apathy. Afflictions to Neptune may also indicate a previous life of extreme asceticism where the physical body was ignored or neglected leading to a leaky aura in this life. The corroborating symptoms are tiredness and need for a lot of sleep. There is also susceptibility to tuberculosis as Neptune is the ruler of this disease. Sunlight counteracts the tubercular diathesis and helps to harden and anneal an etheric body with a leaky aura. Likewise, a favorably aspected Neptune may let one drone away one's time, neglecting valuable opportunities offered for soul growth by following the deceptive lines of least resistance. Neptune rules illusion and abstract thinking, as well as those areas of life where conditions are not always what they seem.

PATHOLOGICAL TENDENCIES: Neptune's placement in the natal chart points to conditions which are difficult to diagnose, or are wrongly diagnosed. It has rulership over the aura and etheric body. Its afflictions denote laxity and weakness of the vital force, and subnormal conditions, as lack of development, undersized body or organs. Its placement in the chart and hard aspects has a strong rule over wasting of tissues leading to decay and disintegration. Its pathological manifestations are lethargy, drug abuse, intoxication, and general lack of tone throughout the body.

ANATOMY AND PHYSIOLOGY: Pineal gland, appendix, right-brain function.

NEPTUNE in ARIES

♆ in ♈

According to the tempo of the aspecting planet, it intensifies the feelings and emotions, gives benevolence and spiritual insight, and premonitions of future events. There may even be a desire to elevate humanity to a higher and more dignified plane of life and may show a public character according to the general aspects of the horoscope. When afflicted, Neptune in Aries brings out destructive tendencies. There may be a similar desire to raise humanity but the methods are anarchistic and brutal. These individuals are fond of strong tea, coffee, or tobacco.

PATHOLOGICAL TENDENCIES: Catarrhal diseases, conjunctivitis, myopia, delusions, brain troubles.

HERBAL STIMULANTS: Allspice, horseradish, ginger, garlic.

PLUTO

Just as your Sun sign represents your true identity in this life, Pluto's house represents an old pattern of identity from the past. It is a past pattern of life that is carried over into this life. We can say that Pluto's house is that area of life where complete regeneration is needed. Compulsive behavior and even ruthlessness needs to be transformed into willful intentions yielding great powers of perception and insight into the subtle forces of life. Plutonian people can make great healers simply by touch or vision.

The aspects of Pluto to other planets gives an indication as to how that transformation can bring new understanding and regeneration. Whether the aspect is "hard" as in square or opposition, or "easy" as in a trine or sextile, determines whether one has an innate knowing, or will meet some hard karmic destiny. There is an enormous potential for power by discovering those fields of experience in the house of Pluto. It heals when it is tapped.

PATHOLOGICAL TENDENCIES: Medically, Pluto's energy is concerned with eliminative processes, both physical and spiritual. The energy represented by Pluto is life-giving and cleansing. Pluto's transits are said to destroy the old forms in order to bring in the new. It's pathological manifestations are abscesses, malignancies, ulcers, and poisonous bites.

ANATOMY AND PHYSIOLOGY: Reproduction, defecation, expulsion of waste matter.

PLUTO in TAURUS (1852-1884)

♃ in ♉

period significant world changes began to occur in science, medicine and industrialization. Practical machines were invented that lead to a revolution in labor and finance.

PATHOLOGICAL TENDENCIES: Sarcoma.

HOUSE 1

The first house and the sign that rules this house, is also known as the Ascendant or rising sign, or that zodiac point which is actually crossing against the horizon at the exact time of your birth. It denotes your outer personality and physical constitution. The Ascendant is about interaction with you and the environment, the meeting point between the individual and the external world. Its sign denotes the animal heat and corporeal vigor. The planet ruling the sign of the Ascendant is considered one of the principal ruling planets of the horoscope. First house placement is so important, that the degree of the sign rising is treated as though it were a planet with regards to aspects with other planets and with regards to pinpointing details of the health chart of the native - his/her mind, body, strength, diseases subject to, etc. The sign on the Ascendant denotes the body's conductance or resistance to the inflow of prana or vital energy. It is conducted best by fire and air signs; and resistant if the rising sign is of water or earth elements.

In every sense the first house should be called the native's personality as it shows what is on the surface, how you appear to others, how the world sees you or what we call the native. Thus the horoscope is also called the nativity chart. Outsiders are attracted to you by this sign. It accounts for those glaring contradictions we find in human behavior. You may feel yourself as sexy, yet it is not picked up by others or appears that way due to your rising sign's influence, and vice versa. It explains why some people are forever getting in trouble or attracting trouble through no intentions of their own. When the first house contains no planets, it means individuality is not a matter of personal concern, these individuals accept themselves "as is". If the first house contains one or more planets, then the native is consciously concerned about some aspect of his identity. There is some dynamic or hang-up that needs resolution, karmically speaking.

Planets in the first house indicate the native is aggressive and strives to be "first" denoted by the planet or planets posited. These individuals usually have a difficult time resting and relaxing their bodies which they need to learn in order to insure good health. First house people tend to be individualists with a forceful drive and ambition in life.

The first house shows the organic elements, the physiological factors, and the physical characteristics which determine the strength and resistance of the body. The Ascendant and the first house represents the "original impulse of individual being", or the self as a particular vibration and rhythm, and the unique soul destiny of the

individual. It indicates essentially the type of experience through which he/she will best discover who they are. The zodiacal sign on the Ascendant normally tells us the "dharma" of the individual, the central potentiality which the conscious person is seeking to actualize. If there are planets in the first house they indicate the kinds of functions which will be most valuable in the process of discovery of one's authentic being. Thus, the planets and the first house ruling planet show the way to impel performance of specific acts.

One can often discover what zodiacal sign was rising at birth (if time of birth is not known) by studying a person's facial features and expression. The head symbolizes the essential character of the individual. The head is ruled by the first house. The first house rules the body form, constitution, and temperament. The physical appearance, strength and vitality, weight, height, color of hair and eyes, etc. are largely determined by the rising sign, degree rising on the cusp, etc. The position of the first house ruler and planets rising modifies these features. The zodiacal sign ascending denotes the part of the body more liable to affliction from external causes such as trauma and infection.

The benefics, Jupiter and Venus, in the first house at birth indicate a good constitution, whereas the malefics, Saturn and Mars, denote scars, birthmarks, moles and defects of the head. This house at birth, and by direction, signifies all diseases of the head, face, eyes, ears, nose, and mouth. This house is closely associated with the feelings, sensations, emotions, manners, passions, and dispositions of the native. In this regards, it explains why the Sun sign does not reflect all the features of the native, and why the Ascendant and the Moon sign are of equal importance in the analysis of the health horoscope.

Regarding the compatibility of healer and patient, the rising sign in each natal map should be in harmony, belonging to the same triplicity, that is in trine or sextile to each other. If the patient has Aries on the Ascendant at birth, his/her healer should also have a fire sign on the Ascendant, as in Leo or Sagittarius. If the healer employed has Cancer, Libra, or Capricorn on the Ascendant it would tend to be adverse, if not in results, certainly in relationship and cooperation. The sextile and trines naturally tend to inspire confidence and faith between healer and patient.

AFFLICTIONS: Head and face, endocrine disturbances which affect the mental states, brain tumors, high fevers, meningitis, migraines.

HEALING COLOR: Indigo

EMPOWERMENT COLORS: White, pink, red, champagne

CAPRICORN ASCENDANT

♄ on 1st

The children of this sign are usually frail after birth but seem to live longer than

most due to their tenacity, purposeful and austere natures. Those with Capricorn rising are usually finicky eaters. This helps them to avoid gaining weight. This is a weak sign in regards to vitality, but they do not yield readily to disease. Although once afflicted they become despondent and melancholic, and may become hypochondriacs. It also does not contribute to beauty of the human form, unless offset by a well balanced Sun sign. Accidents tend to bring broken bones and dislocations, especially of the lower limbs. The native is also apt to have a hearing disorder sometime through their life, if not some degree of deafness in old age. It is often said that a Capricorn with beautiful eyes is made only through sadness, through a tough childhood that one must forgive and forget. Often, there is a beak-like nose and deep snarl lines around the nose and lips. They may have a pale, sickly complexion if there are other hard aspects.

The rising sign is divided into thirds, or 3 "decanates", which have a powerful influence over the appearance and form of your body. The sign is simply divided into three 10° aspects as follows: 0-10° first decanate, 11-20° second decanate, and 21-30° third decanate. Each decanate is ruled over by a planet. The first ten degrees is ruled over by the indigenous sign ruler, the second takes on the qualities of the next elemental ruler, and the third the successive element sign ruler. Thus, the first decanate of Aries is ruled by its Mars, the second takes on the qualities of Leo, and the third would combine the qualities of Aires and Sagittarius, and so on throughout the zodiac. Simply locate the first house on your natal chart and note which degree is rising in the sign listed. This gives you your decanate. If in the last few degrees of the sign, e.g. 26° or more, you would also take on characteristics of the first decanate of the following sign.

FIRST DECANATE APPEARANCE: The figure is usually thin and bony with prominent features and a protruding chin. The neck is frequently short and thin, and the voice harsh if not unpleasant. The body is often short with narrow shoulders with the face too large for the body. The eyes are small and lack-luster. The hands tend to be ugly and require diligent moisturizing.

KEYWORDS: Diplomacy, tact, secretiveness, caution, austerity.

SECOND DECANATE APPEARANCE: The Taurus decanate is ruled by Venus, a more fortunate combination which widens the figure and face. The eyes usually retain the blank, lack-luster appearance often associated with this sign. The Taurian voice is more soft and pleasing.

KEYWORDS: Material detachment, close-mouthed, devoted, faithful.

THIRD DECANATE APPEARANCE: The Virgo decanate is ruled by Mercury giving a more angular body with sloping shoulders, drooping eyelids and raised eyebrows. The Virgo voice gives a deeper tone.

KEYWORDS: Scientific, analytical, critical, chaste.

PATHOLOGICAL TENDENCIES: Astigmatism, awkwardness, poor circulation, debility, constipation, dry skin, lack of animal heat/weakened metabolism, lethargy, drowsiness; prone to ill-health in childhood that improves with age. The native should be certain to drink adequate quantities of water (6-8 glasses daily) to offset these tendencies.

EMPOWERMENT COLORS, GEMS, FRAGRANCES: Browns, grays, black, white; hematite, onyx, rose quartz; cypress, honeysuckle, mimosa.

MODERATING COLOR: Magenta.

KARMIC TENDENCIES: Lameness, crippled (afflicted by Mars or Saturn).

JUPITER in 1st HOUSE

♃ in 1st

Jupiter in the first house, when well-aspected, is a good sign of health, opulence, and general fortune in life. It indicates a good-natured, kindly disposition, cordiality, honor and righteousness of the native. These people love pleasure, particularly out-of-doors, and are fond of traveling. They have considerable executive ability and are therefore sought for positions of importance and responsibility. Jupiter afflicted on the Ascendant indicates a tendency to self-indulgence, according to the sign wherein it is placed. If in Cancer, the native may become a glutton with the inevitable result that in the course of years he/she becomes excessively stout, the liver becomes torpid and enlarged and as a consequence is subject to sicknesses of a serious nature like hypertension and even cancer. In Sagittarius the native may be a gambler who would stake his/her assets on the toss of a coin. In Pisces he/she becomes an incurable chocoholic or alcoholic, in Scorpio a sensualist of the worst nature and so on with the other signs. Whenever Jupiter is afflicted on the Ascendant the health suffers through corruption of the senses - alimentary, sexually, obsessively or otherwise.

PATHOLOGICAL TENDENCIES: Poor circulation, hair loss; obesity; cancer.

JUPITER square SATURN

♃ □ ♄

Jupiter square Saturn indicates individuals with diffident, vacillating minds unable to form decisions. These natives have a tendency to be distrustful of others which at times may interfere with important opportunities. There are difficulties in business or in one's profession from misfortune leading to depression and melancholy, if not dishonesty. Religious and philosophical values tend to be rigid, orthodox, or too materialistic. They appear to others to be slaves of their own dull routines and work, if not stuck in life with no long term goals.

PATHOLOGICAL TENDENCIES: Arteriosclerosis; melancholia, depression; lowered vitality and resistance; seborrhea, acne, dermatitis, eczema; liver disorders, poor absorption of fats, gall stones; pre-diabetic condition due to prolonged hypoglycemia from chromium and zinc deficiencies; troubles of dentition; fragile capillaries due to vitamin C deficiency; asthma, poor respiration, oxygen deficiency, chronic disease from poor circulation; cancer.

NUTRITIONAL ASPECTS: The native should avoid taking synthetic vitamins as they will be poorly assimilated, better to opt for all-natural. Deficiencies of vitamin B-6, biotin, inositol, choline, PABA, vitamin C, zinc, chromium and manganese.

BENEFICIAL FOODS: Spinach, broccoli, bananas, citrus fruits, whole grains.

KARMIC TENDENCIES: Death by assassination (of noble men); wretched, miserable disposition.

HOUSE 2

The second house rules material matters, property, wealth or poverty, etc. It denotes the level of acquisitiveness as a driving force, or the level of greed for power and wealth. This tends to affect the native's homeostasis since possessions are related to the value placed on food and nutrition, habits in acquiring food and other immediate necessities of life. The pituitary gland, which controls all endocrine glands, falls under this house.

The belief or realization for those so gifted, adds another dimension to understand second house questions. One's tendencies, faculties, and karma produced from past lives and carried over into the present rests with the concept of management, that is, intelligent use of one's inheritance, possessions, artistic talents, or even inventions. The second house can show the mere fact of ownership in today's essentially "unspiritual society", or one who lives according to spiritual values and surrenders to mankind assets to promote human evolution. It shows then if a person can advance beyond the traditional use of possessions, or is acting merely as an agent for the "ghosts of karma" (Geg in Tibetan), with a life filled by ancestors, driven by socio-religious hatreds and fears.

When no planets occupy this house, it indicates the native does not see money as a major issue in life. With planets in this house, the affairs of other houses which those planets rule are brought to bear influence on the matter of obtaining money. For example, if Saturn is in your second house, tenth house matters, such as your profession, is where the money will easily flow from.

People with planets in the second house have overwhelming desires to prove their self-worth, establish themselves in society by big factors as indicated by the house rulers outlined above. For example, if the Moon is in the second house, fourth house

matters like the home are important and the native will desire a big home or big family. After having established their nest eggs, (with the personal planets Venus, Moon, Mars, Jupiter placed in this house) gluttony is not uncommon. The native will also learn the karmic problem of this house - happiness is the one thing that cannot be bought.

AFFLICTIONS: Problems with homeostasis - blood and electrolyte changes, intake of nutrients - diabetes, obesity, hypoglycemia; disorders arising from vaccination.

HEALING COLOR: Yellow

EMPOWERMENT COLORS: Green, lemon, citrine, brown

PISCES on 2nd HOUSE

♆ on 2nd

They may be disorganized and lax when it comes to handling their affairs and if they do not pay close attention, there is the potential that all they have worked for will dwindle away.

MOON in 2nd HOUSE

☾ in 2nd

This house sign indicates a strong need for money in order to make a stable home and family situation. This position indicates gain by employment, through occupations connected with public affairs, by dealing with liquids and other commodities, and by catering to the wants of the ordinary. It also denotes money derived from the mother or her side of the family, from women, or from inferiors through the employment of labor. If well-aspected to Saturn it gives thrift and prudence in money matters. When favorably aspected to the Sun, Jupiter or Venus, great wealth may be amassed. When adversely aspected, it is a true signifier of fluctuating finances.

PSYCHOLOGICAL TENDENCIES: Moon in the second house indicates that money or personal assets represent emotional security for these natives. When well aspected it indicates gain through all things in which water, chemicals, photography, oil, religion are involved. Occupations involving the needy or handicapped may play a prominent role. If Neptune is afflicted, the financial affairs of the person will always be in an uncertain, chaotic state, with liability of loss through fraudulent schemes.

PATHOLOGICAL TENDENCIES: Diabetes, mineral imbalance, obesity, rheumatic pains.

HOUSE 3

Astrology speaks of the third house as that of brothers and sisters, and close relatives. It actually means the earliest newborn environment and of one's grown relationship to it. The relationship of the child to his/her environment is basic and substantial in the formation of his/her character, and of responses to life. The third house refers to the early environment and to persons who acted within it - close relatives, guardians, siblings, etc. It also shows in the child "coming to terms" which is at first entirely unconscious and instinctual, later becoming the foundation for human intelligence, and consciousness.

No planets in the third house means response in a natural fashion. One or more planets in the third house indicates a self-conscious need to express thoughts. It may sometimes indicate speech difficulties. The native is often asked too often to help other people, brothers and sisters. The disease of "other people" can lead to great frustrations and nervous stress. These individuals need to learn to say no, take regular breaks in peace and quiet, take short naps after lunch, etc. for the health to improve.

Malefic planets in this house tend toward mental instability and chaos unless well aspected. It shows traumatic experiences such as child abuse, fights with siblings, rebellion, etc. What differentiates this house from its opposite, the ninth house, is that of experiences involving direct personal contact with the close environment of the individual, resulting in habits and proclivities. It indicates physical actions, and transportation, especially within your immediate environment. Benefics in this house, when well aspected, indicate a well balanced mind. It rules the fingers, hands, chest, lungs, the lower mind and wakefulness.

AFFLICTIONS: Disturbed breathing rhythms, reduced vitality, lack of oxygenation, nervous tension, mental instability.

HEALING COLOR: Orange

EMPOWERMENT COLORS: Yellow, indigo, white with red

ARIES on 3rd HOUSE

♈ on 3rd

Aries ruling the third house indicates individuals with innovative methods as well as intellectual curiosity. They can be impatient and feel the need to absorb as much information as possible at one time. The native can also be aggressive and argumentative concerning their pet ideas and theories. These individuals have a tendency to create tension and instigate rivalry, particularly among their brothers and sisters.

They pride themselves in being alert and observant, seeking out answers to any mysteries they may encounter. At sometime in their lives they may be involved in clandestine situations.

KARMIC LESSON: Learn to communicate with a creative ability to get at the depths of human interaction without causing irritation to others. What you

communicate and think may have serious consequences with secret enemies.

HOUSE 4

The fourth house is said to have two basic meanings - the soil or secure foundation in which man is rooted; and the "heart" or fundamental rhythm of the individual self. It is indeed the Nadir of the chart, the midnight point of consciousness, where "God-experience" can be had. The vertical line of the birth chart - Zenith to Nadir - points upwards to the sky (Zenith) and downward through the spinal column at the center of the globe. Unity comes by centering one's "Hara" or vital energy with that of the Earth.

Its sign and planets refer to the kind of feeling which spontaneously mobilizes and directs the energies of the organism, often called "gut feeling". The Ascendant tells who we are, while the Nadir shows what we are, at least potentially, where we stand. It is the power implied in "being a person", yet in today's global economy it is basically conditioned, if not entirely determined, by socio-cultural patterns and media manipulation, rather than by ancestral family values. Thus it indicates the beginning as well as the end of various cycles in the native's life, including old age, the end of life and death, the various conditions which affect the close of life, its diseases, worries, wealth or poverty, etc. The nature of the end of life will be told by the planets in this house, and the sign on which the cusp begins the part or organ where the complaint will lie.

If there are no planets in the fourth house, the native accepts his background and family and makes the best of it. If there are one or more planets in the fourth house, then conscious attention is directed towards his background. He/she has reasons to question, if not doubt family matters. Some may have unfortunate liabilities to overcome before they make headway in life. Malefics in this house can indicate early childhood traumas which are best recalled and cleared by past life regression. Neurosis can result from repressed anger. Parental attitudes and conditioning have led to unhealthy if not neurotic habits. All these matters of childhood trauma and abuse are judged by the fourth house.

At the biological level, the fourth house symbolizes the acquirement of nutrients to satisfy basic physiologic needs to meet daily routines and obstacles. It is the energy needed for intercellular exchanges and for adjusting the body to changes in temperature and the demands of the physical environment. It rules over the body water, interstitial fluid, and lymphatic environment. In a mentally and emotionally developed person, one's personal power (Hara) is available for self-expression and social contact. In an undeveloped or immature being, confusion sets in with mixed impulses carried over from previous lives and those values family and society has forced upon the individual. This results in oral fixations, hormonal imbalances, lymphatic stasis and obesity. It is a being out of rhythm, breathless, confused and never satiated.

This house rules the breasts, lungs, stomach; inheritance; the birthplace and home place; the mother in the male chart and father in the female chart. Benefics in this house at birth indicate that the native should live in his native homeland, if possible, for insured good health and fortune, leading to a happy end of life. Malefics here point to a short life of the mother or father, according to the sex of the horoscope; disease, distress, and worry in old age.

AFFLICTIONS: Oral fixations, overeating, nutritional disturbances, obesity, anorexia; diseases of the stomach, breasts, and lungs.

HEALING COLOR: Violet

EMPOWERMENT COLORS: Silver, green, russet, brown

TAURUS on 4th HOUSE

♉ on 4th

The fourth house is the area of private concerns, emotional security and how we inwardly feel about ourselves. If there are no planets in this house, there are generally no problems in the way these natives accept themselves. The cusp on this house shows the general tempo of the subjective self. Taurus ruling the fourth house indicates people who regard themselves as practical and dependable. These individuals' romantic and social lives are usually centered around their homes. Their residences are apt to be elegant, comfortable, and homey. Afflictions in this house indicate the inability to enjoy domestic life and difficulties in purchasing a home.

HOUSE 5

At its highest potential, the fifth house shows the exteriorized power and a projected vision originating from a realm that is "super personal". The person thus becomes an agent for some great collective consciousness or planetary, evolutionary purpose. He/she becomes a lens through which light is condensed and brought into focus, at which point power can operate and work can be performed. This creative process, work, and its products are conditioned by the nature and temperament of the person. The person acts strictly as an individual. To the extreme, he/she expects results that will bring fame, prestige, and ego-satisfaction.

The fifth house is the area of experiences which are essentially the outcome of emotions, as distinguished from gut feelings of the fourth house. Feelings are spontaneous reactions, whereas emotions seek an exteriorization, or "moving out" with synchronous organic changes and muscular movements. The fifth house is associated with gambling in any form, for money, business ventures, romance, etc. whenever one follows hunches, inner frustrations, or imagination.

Traditionally, the fifth house is considered to be the section of the birth chart

(radix) referring to love affairs, versus a seventh house marriage. Fruitful signs and planets here denote many children, barrens signs and planets here tend to deny children. This house rules the back, spine, liver, stomach, appetites, loves affairs and sexual appetites. This house is said by some to rule the soul.

Each house of the radix refers to power and unfoldment, as well as some great test of the developing individual. The zodiac sign on the cusp of this house and planets within should give the student of astrology clues as to the best way in which he or she can solve problems creatively. The Chinese character for danger, also means opportunity, depending solely on one's perspective and ability to be creative. The test of the fifth house is that of isolation, or emergence as a unique and valuable human being. The test of the second house is that of ownership and possessions. In the third house it is thought and how to handle ideas to approach challenges of one's environment. The fourth house test is that of stability. The fifth is creative self-expression.

No planets in this house means the native has little attraction to fifth house matters. He/she can take gambling or leave it. One or more planets in this house shows the native has a natural interest in art, pleasure, children, romance, or gambling. These natives may feel a great need for love. Their ailments can come from chaotic affairs leading to frustrated and fragmented lives. The root cause is insecurity. Naturally, the houses ruled by the planets in the fifth house contribute and inspire all fifth house creativity.

AFFLICTIONS: Heart disease (with malefics in this house), overeating, egomania, spinal disorders, liver problems, arteriosclerosis, hypertension.

HEALING COLOR: Purple

EMPOWERMENT COLORS: White, gold, green, red

GEMINI on 5th HOUSE

II on 5th

The fifth house is where the ego extends into so-called pleasurable pursuits.

Gemini ruling the fifth house indicates individuals whose pleasure pursuits are intellectual or mental. However, no one area of pleasure will occupy the native's thinking for too long. Romances are apt to be precarious or fickle and these individuals may be in more than one relationship at one time. They can be critical of their loved ones. They enjoy trading stocks or other commodities.

HOUSE 6

The sixth house implies a crisis of perception, the period of personal readjustment, the time in one's life when one is forced to realize what he/she has done and whether success has come to rest or to haunt. Once a work is completed, the composer is

often painfully aware of how it could have been produced better. A person's inner worth is often revealed when faced with experiences and periods of inadequacy, frustration, or defeat. These crises take their toll upon the body, require guts and fortitude, and great reserves of vitality. This house represents fundamentally, everything that deals with personal crises, the way to best meet them, and the direction of personal growth and transformation. The sixth house is somewhat karmic in nature by its perception or reason for duties, debts, and obligations.

The sixth house is known as the "house of health" and the sign on the cusp of this house indicates which body parts and organs prone to disease and affliction. Illness may be the direct result of some defeat of the vital energies unable to cope with a challenge to grow stronger, or an attempt by the soul to show a need for a revision in attitude. The sixth house shows a response of the individual to a social situation. Also, as a patient, one should not consult with a doctor whose natal Saturn is in the sixth house of the native, as one will find incompatibility or may even be poisoned by medication.

Natives with planets in this house may have a lack of self-esteem, be plagued by guilt, or seek the approval of others. All these negative emotions affect the health with nerve related ailments, blood sugar problems, and intestinal disorders.

Benefic planets ruling this house or planets in this house show better health, while malefics afflict the mind and body. The sixth house in a broad sense governs disease, especially if there are planets in it at birth. It particularly rules the abdomen, belly and intestines, food affecting conditions of health, healers and physicians. The sixth house also rules aunts and uncles, servants, persons in employ, kindred on the father's side, small animals and pets of the native.

AFFLICTIONS: Hereditary diseases, general ill-health; abdominal disease.

HEALING COLOR: Aquamarine

EMPOWERMENT COLORS: Black, amber, scarlet, brown, dark blue

GEMINI on 6th HOUSE

II on 6th

The sixth house deals with careers, routines, and health. The native's obligations to others as well as himself/herself appear in this house. Gemini ruling the sixth house indicates individuals who are versatile and able to perform many jobs at once. Mental attitudes must be kept positive for productive work and sound health. The native is friendly towards coworkers and is generally able to manage effectively. In this house of food the native is prone to fits of hypoglycemic cravings and as a result snacks often. These types prefer foods in small portions with great variety - buffets, smorgasbords, "all you can eat", etc. The native typically enjoys food preparation but is prone to snack through the ordeal and will try anything once. As a result of erratic

and compulsive eating habits, the native develops food allergies.

PATHOLOGICAL TENDENCIES: Disorders and weakness of the parts ruled by this sign - shoulders and upper arms, upper lobes of the lungs, bronchial tubes, fingers and hands, respiratory functions, thymus gland, trachea, upper dorsal and spinal nerves, upper ribs, quality of the blood and its oxygenation; asthma triggered by allergies.

FOOD ALLERGY TENDENCIES: Alfalfa, almonds, beans, caraway, carbonated drinks, celery, dill, fennel, lemongrass, lentil, marjoram, mint, parsley, pecan, peppermint, pistachio. These foods should be checked by electroacupuncture, bionutralizer, applied kinesiology, or by cytotoxic testing.

HOUSE 7

The seventh house is closely related to the sign Libra, and thus marriage and partnership, the husband in a female nativity, and the wife in a male nativity are also related. This house shows the test of functional cooperation and participation between individual and society. Function suggests purpose, both inherent and potential, in man or woman. Purpose is only revealed as one operates within the group or global economy. It is the field of human experience that the person can be most basically transformed and can gain freedom. Planets in this house reveal compelling pressures and motives for destiny. In such cases, individuals may find themselves driven to enter into certain types of relationships as part of their destiny.

While the first house represents how the native appears to others, the fourth house shows how the natives sees himself or herself, the seventh house represents how others appear to the native. It represents those whose lives touch the native and how they respond. If the house is unoccupied by planets, he/she is comparatively free of the influence of others in most of his/her affairs. These individuals do pretty much as they please, but it also means others do not generally help them either. The affairs of this house are always related to the area of another house where the ruler of the sign on the seventh cusp lies. If there are one or more planets in this house, the native is consciously dependent on others in some respect and other people tend to control his/her affairs. Natives with planets in this house may find it difficult to "stand on their own two feet". They feel accomplishments need to come through other people or their partners or spouses. The Sun located here is indicative of good health, while Saturn signifies a potential for a short life. Mars here, indicates a bad wife and sickness.

The seventh house also denotes the type of physician or healer required in health matters. It is important that the healer is compatible with the native depending on the illness. The result may be a marriage that is often dissolved in the divorce court and separation and estrangement follow. There is quite often a public scandal in connection with these affairs, or it may indicate the death of the marriage partner, all according to aspects. People with Uranus in the seventh house should avoid going to court, for no matter how just their cause may be they are most likely to lose by some strange, twisted, unforeseen or sudden circumstance. They should also avoid public office or position, for no matter how honest they may be there is the tendency to become involved in scandal. These relationships can mean marriage, partnerships, and business associations. The second house refers to private assets, or what can be used to actualize one's birth potential. The eighth house deals with business contracts and agreements that are legally binding. The eighth house field of experience deals with trust, management, and responsibility. The second house deals with personal management, whereas the eighth house with proper management of business assets, profits and losses. It indicates where binding agreements will bring legacy. It may also mean death followed by rebirth, or the kind of disagreements which bring unresolved frustrations and a future surrounded with karmic ghosts. With such a native, emotional scarring tends to be hidden. These individuals have a burning need to purge themselves of past memories which brutally punish their bodies for years. Many succumb to chronic ailments around the ages of 42 to 49 years old. HOUSE 9

Experiences and the tests related to the ninth house are those periods encountered by the individual to find the meaning of things. The act of knowing belongs in the third house because it implies mere contact with the immediate environment. It is knowledge derived merely from sensations. The ninth house relates to understanding, a far more complex process which involves synthesis of many factors and data. The German term "gestalt" applies to the ninth house as a type of knowing, understanding, and referencing holistic experiences derived from mystical and philosophical inquiry.

The ninth house is the house of symbols and words. Symbols have to be interpreted. The radix chart is a set of symbols relating to the location of planets and stars at the time of birth. It symbolizes the complex relationship existing between the native and the universe. Likewise, all religious concepts and mystical visions are symbolic of man-to-universe relationships. To speak of a "God Experience" is a typical ninth house activity, a unity which the person projects and asks for answers for all his conceivable needs.

The danger one faces in ninth house experiences is over-expansion caused by ambition and greed for power and power symbols, such as money. Ambition is the negative aspect of this house, leading to compulsive egocentric relationships that use other people for power or prestige. Knowledge is used to achieve power. It is this type of knowledge our society holds in high esteem. Ours is a society imbued with competition and ambitions, worshipping success and power with no concern for the environment and health of society as a whole. Thus the relationships become perverted, destructive and inharmonious to a wholesome life. In such a society, the mind is used as the instrument of success. Group relationships translate into compulsive cooperation, mandated actions, and forced taxation. It implies twisting the laws, natural as well as political, so they become tools for gathering wealth. This is the mind of the politician, the corporate leader, the scientist in search of inventions and discoveries for personal fame.

If the house is unoccupied by planets, the native finds it easy to accept certain philosophical principles or cause of religion, and there is no resistance to understanding higher principles. If the house is occupied, the native is concerned with philosophical formulations or developed principles. Due to this high thinking, people with benefics in this house are some of the least likely to have health complaints.

HOUSE 11

In the eleventh house, the power of society, as a collective or group, is released through the individual. The power is released through the activities the individual performs within the social unit such as in their profession, church, club, fraternity, etc. Success is seen pleasurable in the social environment as his/her work and prestige unfolds. The experience gained in the tenth house makes it possible to set new social objectives, new professional goals, or to relax in the company of one's peers or fellow workers. This house has much to do with an individual's attitude towards achievement and social success. It is the use a person makes of either achievement or failure which establishes his/her self-worth. Success or failure brings into the total being the way one lives, feels, and acts and thus has great influence on the health of the native. Success as well as failure must be used wisely, significantly, and creatively. Regression therapy can do much to undo the patterns that led to failure, or perceived failure can be unfolded into a new dynamic.

If the eleventh house is unoccupied, the native does not consciously need friends to share his/her wishes or hopes. Those who have planets in the eleventh house always work best within groups united for a common purpose. The eleventh house is affiliated with Aquarius and rules the legs, calves and ankles. The malefics in this house bring despair, false friends, ruin and wicked children.

AFFLICTIONS: Heart function; injury or disease of the legs, calves and ankles; blood dyscrasia.

HEALING COLOR: Red

EMPOWERMENT Colors: Sky blue, orange

SAGITTARIUS on 11th HOUSE

♐ on 11th

The capacity and need for friendship and the effect of these contacts on one's perspective are shown by the eleventh house. Sagittarius ruling the eleventh house is very favorable for friendships fostering optimism and camaraderie. The native enjoys famous friends and those that are loyal.

HOUSE 12

At the twelfth house, the sky comes to an end, as one has performed his social or

professional work in the eleventh. It is described as the house which closes the human cycle of life. They are either the Angels of Light beckoning to the beyond, or they are the dark Guardians of the Threshold, whose memories are shaped by frustrations, denials in life, fears and sins of omission. In the twelfth house we meet the results of our passive acceptance of that which was, or our spiritual rebellion that helped make a new world. We face the karma of society in a subconscious manner, or we face the karma of individuals who fought society for selfish interests, or for the sake of a better world.

The collective power of memories are witnessed in the twelfth house. What is called karma may be so great that it stifles the individual identity of the newborn, or drowns out the rhythm of a new cycle of the man facing the probability of rebirth. This results in the new cycle, becoming no more than a repeat of the last cycle. According to ancient Indian philosophy, the last thought held in death determines the pattern of the future incarnation. One of the stranger characteristics of our linear, Western society is its inability to think in terms of cyclical processes. Such a denial can be traced to a religious decision of the Council of Constantinople in the 5th century A. D. which prohibited the belief in reincarnation and other factors that began the era of the dark ages.

The twelfth house relates to sorrow, disappointment, loss, misfortune, the private hells, anguish, solitude or confinement, hidden fears and worry. It is considered by some as an "evil house", the house of restrictions and limitations, and detrimental spiritual or psychic conditions of the native. It is related to the sign Pisces. Its placement suggests the best way to deal with one's ghosts and products of the subconscious. The best way to deal with a shadow is to illuminate it by the use of lights focused upon it from a number of different directions. This process is utilized in past life regression therapy. Ghosts and shadows of the subconscious will vanish when subjected to the light of understanding and compassion.

If this house is unoccupied by planets, the native is generally not consciously confronted with its implications. He does not live in fear and accepts and works within the framework of his destiny. Not everyone in life is confronted with the spiritual issues of the twelfth house. Many indeed pass through life facing the material consequences of their conscious ambitions as revealed by the tenth house. If the twelfth house is occupied, the native has some matters in which to confront and work out as shown by the houses ruled by the occupying planets. The sign on the cusp of the twelfth shows the general tempo of inner spiritual matters in the native's life. Planets here indicate forms of introversion with emotions that build up until some form of illness manifests. Talking about their feelings through past life regression is the best remedy for twelfth house individuals. They need to learn that harboring envy, jealousy, and hatred invariably brings disease and misfortune. The karmic law applies.

AFFLICTIONS: Auto immune disorders, reduced thymus functions from negative thoughts; afflictions, hurts and injuries of the feet; lymphatic congestion; worry, brooding, despair and despondency.

HEALING COLOR: Lemon

EMPOWERMENT COLORS: Green, blue, white

SAGITTARIUS on 12th HOUSE
